MEIJIA transparent micro waterproof protective case Details

R angle

The edge of the box mouth is designed with an inverted R angle, which is beautiful and smooth, so that you will not be injured by the angle.

Easy To Open With Latches Design

Smarter and easier to open than traditional cases. Start the release and offers plenty of leverage to open with a light pull in just seconds.

High Quality Auto Exhaust Valve

Solve the problem that the box can not be opened or deformation due to the difference of internal and external air pressure and keep water molecules out.

Customizable Foam Insert

Foams which can be customized are well padded inside the cases.

Portable Handle Design

Easy to go with our portable handle design.
